SPECIFICATIONS

Overview

Fishbones is a fresh water vessel and is in must see condition. She is everything you would expect from a great lakes kept boat that has only been lightly used for four months per year.

From the cockpit upholstery, saloon fabrics, engine room condition, and clean bilges she shines from bow to stern. This Pursuit offers pristine, barely used built in overhead rod storage on both the port and starboard sides. The teak and holly floor is original and doesn't show any sign of use and has no scratches. Besides the well equipped helm controls and related electronics, she comes with 3x disconnect swivel mounts and 3x Big John DC powered electric down riggers.

The 7.4 L MPI Twin Crusader engines with approximately 900 hours each are in great shape and have the original paint direct from the factory. All annual maintenance; oil and oil filters have been regularly serviced on a regular basis along w/fuel filters. No salt water deterioration or signs of rust. This is clean and represents the kind of build quality that boaters have come to expect from the Pursuit/Tiara brand of vessels. She stands tall and will take you out to the fishing grounds or just cruising at a comfortable 26 knots and bring you home safely.
