Interior Designer: Luca Dini Design

Engine Information

Engines: 2

Manufacturer: MTU

Model: 16V 4000 M73L

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

M60 - Overview

Mondo Marine SpA is recognized around the world as one of the finest manufacturers of custom motor yachts specializing in construction of Steel & Aluminum. A proud member of SYBAss (Super Yacht Build Association) Mondo Marine is considered by their peers as having the highest standard of ethics & quality. Each yacht is completely customized for the individual client. This Luca Dini Designed 60m Light Alloy mega-yacht has a volume of 820 gross tons and a range of 4,100nm while still achieving a top speed of 19.5 knots. Massive beach club with innovative design, huge exterior deck spaces, and a 6 cabin layout make this an excellent yacht for both private use or charter. The on deck master cabin has large balconies located to both port & starboard. Estimated build time is 30 months from the time contracts are finalized. Pricing is available upon request.

Shipyard Overview

Mondo Marine designs, constructs and carries out the engineering to its yachts at its production site at Savona. The yard is positioned on the sea front and stretches over 35,000 square metres, 9,500 of which are covered. There are wharves stretching over 100 metres in length to accommodate maxi yachts. There is a 820-ton travel lift, one of the largest in the Mediterranean, and a 300-ton cradle. We are currently constructing new warehouses and will soon begin restructuring our offices.

Values

FULL PRODUCTION CYCLE Mondo Marine produces every element of its yachts, starting with the cut of the metal of the hull. Every detail of the yachts showcases the excellence of production and the pure Italian style. The yard exports worldwide. The workings on the aluminium and steel are done internally. **QUALITY AND SAFETY** The work is carried out to extremely high standards, in line with ABS, Lloyd's Register and RINA. This guarantees precision and perfect linearity of construction as well as controls over the standards and ensures delivery on time. **TECHNOLOGY** The MONDO MARINE ENGINEERING division carries out the installation of the most technologically advanced onboard systems as well as conducting naval engineering research into water lines and hydrodynamics. This makes it possible for Mondo Marine to create extraordinary powerful yachts that are fast and silent, making navigation extremely safe and comfortable. **ENVIRONMENTALLY FRIENDLY** Some 62 yachts have rolled off the slips to date. Among these is the famous Tribù, the first yacht to be awarded the Green Star certificate of environmental standards by RINA. This allows the owner to document his respect for the environment by fulfilling a series of rigorous technical criteria.

Exclusions

Owner's personal belongings. Owner's personal toys, including but not limited Jet-skis, Tenders, Sea Bobs, Fishing & Diving equipment.
