DETAILED INFORMATION

Features

Extended Cabin Roof The extended cabin roof gives full protection from the sun, rain or wind. An optional canvas cover enlarges the living space in colder seasons. **Protected Side Decks** Wide side decks make moving around and maneuvering simple, safe and fast. Children and pets greatly benefit from this. **Cockpit Storage** Twin cockpit storage lockers offer all the space needed for your equipment and toys. The vast cockpit, further enlarged by a remotely controlled opening transom platform is seamlessly connected to the salon area by an opening aft enclosure. Makes for easy and safe boarding from the dock or the swim ladder. **Helm, Sliding Roof** The electrically operated sliding salon roof brings in sun, air and feeling of an open boat when needed. The side door at the helm station enables good communication and fast access to the deck, as well as excellent additional ventilation. **Salon** Panoramic view in the salon - Extended glass surfaces throughout bring panoramic vistas and connection to the outer world. A spacious area / dinette in the salon allowing entertaining of up to 8 persons. **Galley** The galley is equipped with home appliances to domestic standards and can equally serve the salon or cockpit dining areas. **Queen Convertible Berth** The owner's cabin forward offers space, storage and two very comfortable beds with household mattresses (80 x 200 cm). These can be separate with excellent side access, or re-positioned in seconds to form a true double bed 160 x 200 cm. Ventilation and light comes from 3 opening hatches and port lights, one in the deck and two in the hulls.

Accommodations

Superb Guest Cabin The guest cabin to port has standing head room and beds of same size and configuration (2 singles or one double) as the owner's cabin. A comfortable lounging chair and hanging lockers make a longer stay on board a pleasure, while a hull window plus a ceiling sliding hatch (with the open sliding salon roof providing sky view from the beds in the guest cabin) make this cabin light, open and well aerated.

Separate stall shower in the washroom - direct access is provided to a washroom with a stand-up shower compartment.

The Hybrid Package

1. Protected Superdisplacement Hull Design Exceptional low-drag hull shape derived from sailboat hull lines Benefits less resistance, better seaworthiness and easier handling than any comparable hull reduced energy requirement means less running costs, less refueling stops and more time for cruising less wake and CO2 emissions preserving the environment optimal performance in all sea conditions comfortable and safe ride **2. Protected Hybrid (diesel/electric) Propulsion System** Hybrid drive Solar roof Lithium batteries Benefits can

collect, store and use electrical energy from the sun, from the shore pick-up or from the main engine driven generator 230 (120) V AC available at any time, either at dock or at sea full sized fridge (270 liter), electrical oven, TV, air condition and other home appliances on board cost and emission-free sailing in electric mode running costs of electric boating are 10 times less than burning diesel fuel, even disregarding solar energy ease of use and no maintenance **3. New Build Technology** Advanced infusion technology Environmentally friendly Significant weight saving Benefits lighter and stronger yacht that further increases energy efficiency and performance through an enormous effort in time and money spent in the development phase of the Greenline Hybrid, this state-of-the-art product offers great performance, reliability and user friendliness at an incredible value for money

GreenPad

GreenPad, Maximize your Greenline experience

The GreenPad is an iPad application that has been specially developed for the Greenline range of yachts. Wirelessly collecting data from the GreenBox in the engine room, it graphically shows the status of your Greenline on the iPad. All the boat data is presented through a user-friendly interface. It is packed with features, easy to use and comes with a customizable interface: just slide to set the detail level of your choice.
