SPECIFICATIONS

Overview

This is the best equipped 2001 Nordic Tug 37' on the market today. She is ready to take you cruising right now. Grab your clothes and get some food and off you go. **SPREE** is equipped for expedition cruising. The list of equipment, spares and more is very extensive. She has travel to Alaska twice, around Vancouver Island, Olympia to Glacier Bay and all the cool anchorages in between. She won't last long!

SPREE is a 2 cabin and 1 head vessel. She has an Island Queen in the Master cabin forward. The Guest cabin has a single bunk on top with a double size bunk below. The Head has a separate shower with a closing glass shower door. The L-shaped dinette in the Salon converts to another Queen berth. Total sleeping capacity 7.

This NORDIC TUG design has a very nice open layout. When walking in from the Cockpit to the Saloon and Galley you can also see the Helm which also has a comfortable Settee with a very useable custom swivel table. There is a full suite of electronics and great visibility. The Bow Thruster makes docking or crab pot pulling an easy task. **SPREE** has been outfitted for long range cruising to remote destinations with very capable ground tackle and SPARE ground tackle.

The owners added (2) very useful features to the transom & dingy to make it easy and stable to get into and out of the dingy from the transom. There is a waist height railing on the transom and a tall grab bar in the dingy to help for a controlled entry to and from the dingy. The dingy also has a forward folding seat that has fold up back support. The davit easily launches and retrieves the Aluminum bottom inflatable dingy.

MASTER CABIN:

- Overhead opening hatch
- (2) LED reading lights
- (2) opening port lights
- (3) eye-ball adjustable lights
- (2) lighted hanging lockers
